THE BRITISH BROADCASTING CORPORATION

Head Office: Broadcasting House, London, W.1.

STAGSHAW TRANSMITTING STATION

Corbridge, Northumberland

TELEPHONE & TELEGRAMS: GREAT WHITTINGTON 231

2nd January 1964

Mr. R.B. Schiller,
Box 456,
Monmouth Beach,
New Jersey,
U.S.A.

Dear Mr. Schiller,

Thank you for your letter dated December 25th 1963 with the information that you had picked up transmissions from Stagshaw on December 23rd on 1151 kc/s. The list of news items which you copied was quite correct, the missing name being Kilgour.

It was also interesting to know that you had picked up so many other BBC medium wave stations; conditions must have been exceptionally good for medium wave propagation at that time.

For your information; while, at one time, Stagshaw and Lisnagarvey did share the 1151 kc/s. frequency, since January 7th 1963 Lisnagarvey has been transferred to 1340 kc/s.

The Northern News originated in Newcastle and is exclusive to the North Region and your presumption that each Region carries its own local news is correct.

I am forwarding on your letter to our Engineering Information Department at our Head Office in London as I think it might be of considerable interest to them.

With many thanks for your interest.

Yours faithfully,

I.S. Dinnis

(I.S. Dinnis)
Engineer-in-Charge
